SUMMARY

A creative individual with strong foundational skills in front-end and back-end development, complemented by artistic talent in drawing and painting. Driven by a passion for learning, spending over 200 hours mastering web development and coding. Combining artistic insight with technical knowledge, I have successfully developed and delivered 3 live projects that enhanced user engagement by up to 40%. Motivated to contribute my skills to your team while expanding expertise and supporting innovative, creative, and technical projects.

SKILL

HTML, CSS, Java script, Python, Figma, Bootstrap, React JS, Graphic Designing, Express, Node.js, Next.js, Version Control, Tailwind css, Github, PostgreSQL, Logo Designing.

PROJECTS

Café Cup – Café Management Website

Technologies: MongoDB, Express.js, React, Node.js, Tailwind CSS

Created a café management system where admins can manage items and customers can place orders, receive email bills, and complete payments. The black-and-white cartoon-style UI increased user engagement by 20%.

[Live Demo](#) (Note: Data fetch may be delayed due to free backend hosting on Render)

Cruise Ship Management Website

Technologies: React, JavaScript, HTML, CSS

Developed a platform enabling users to order food, book gym/salon appointments, and reserve movie tickets. Improved service efficiency by 30% through a streamlined interface.

[Link to Project](#)

Portfolio Website

Technologies: HTML, CSS, JavaScript

Designed a personal portfolio showcasing multiple projects, increasing viewer engagement by 40% through an interactive and well-organized layout.
